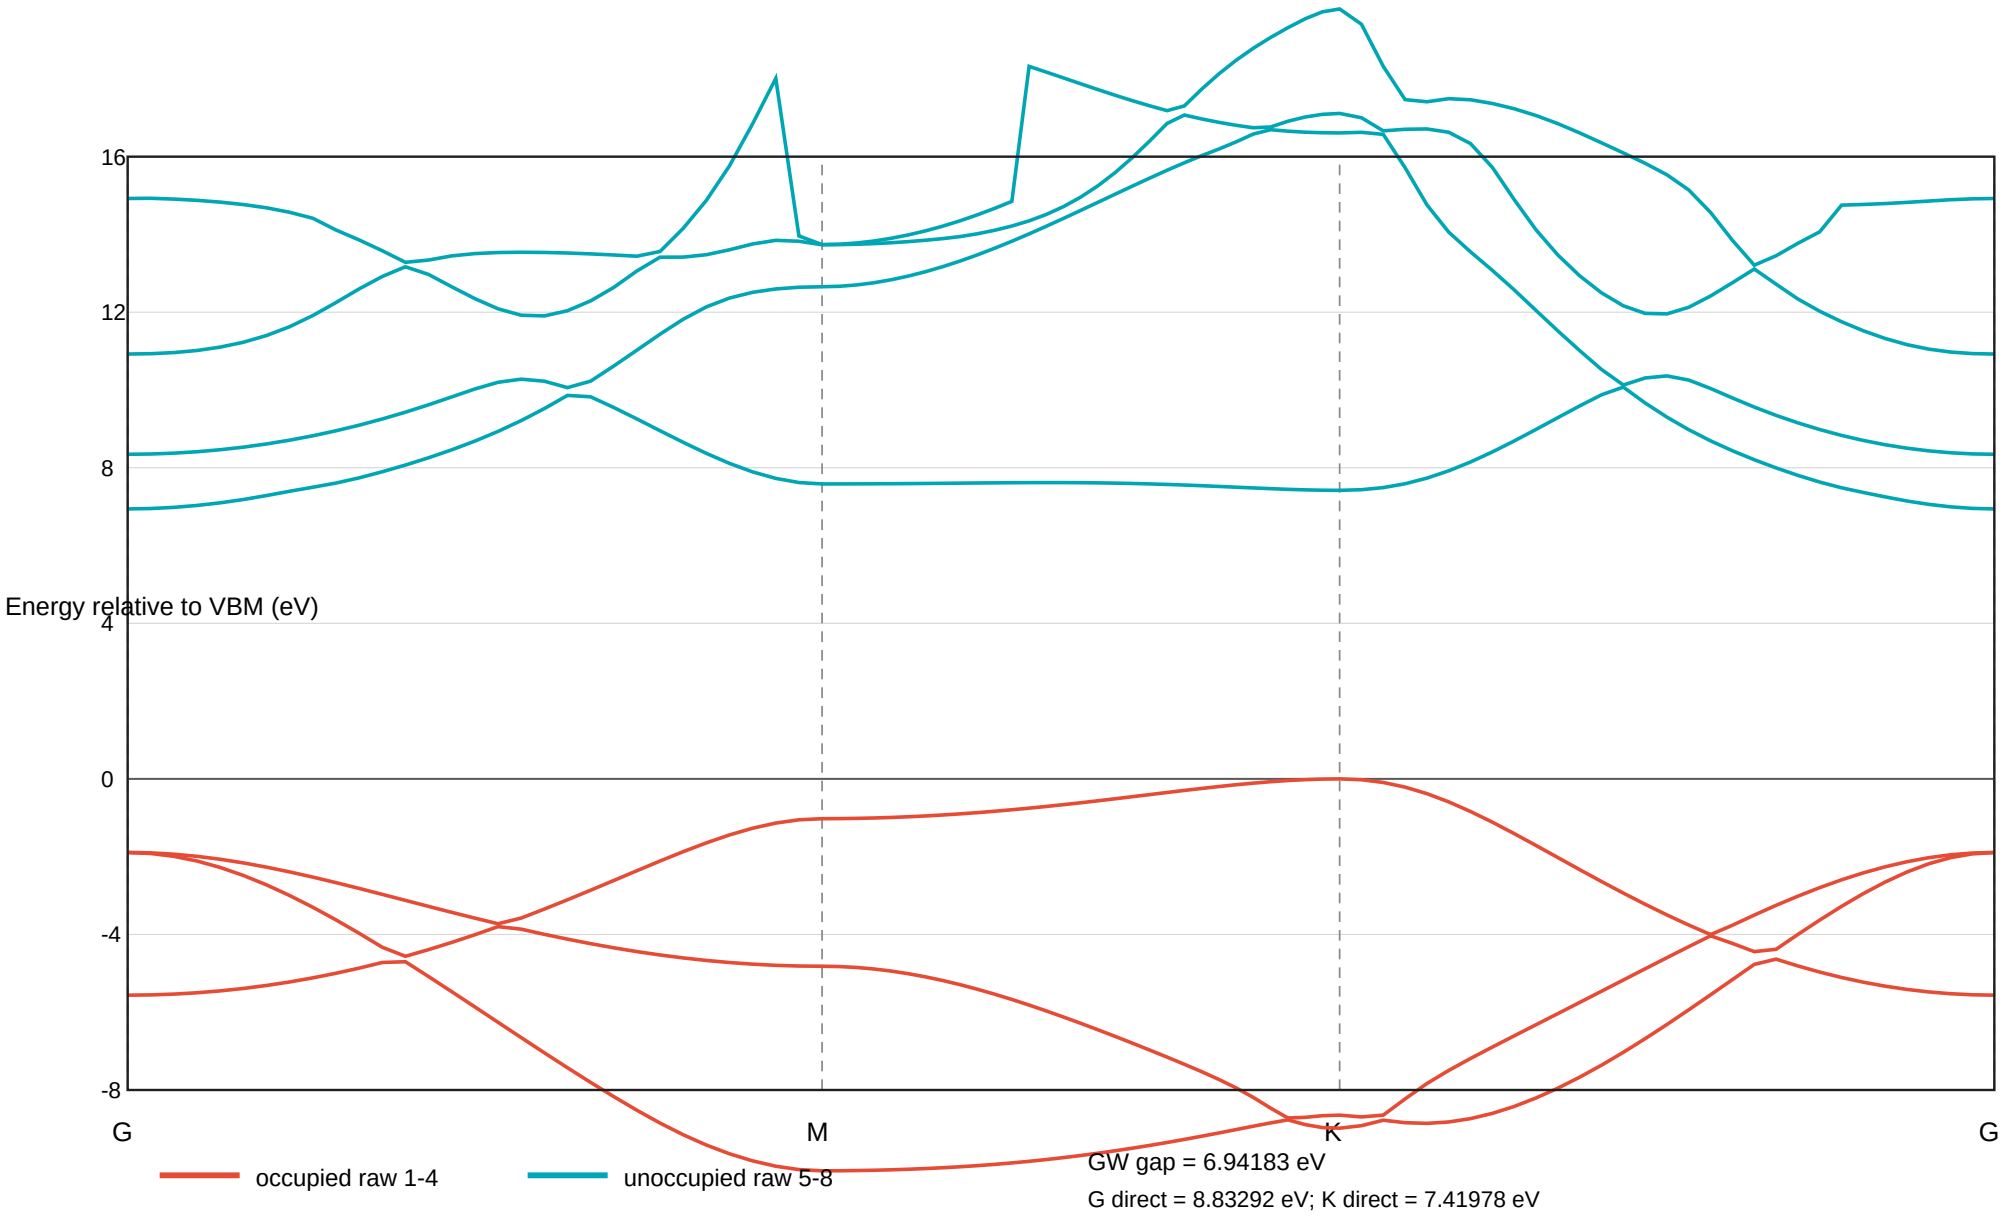
hBN G0W0: 10 au + smooth f/g auxiliary basis

Standalone current result; VBM aligned to 0 eV; raw bands 1-8 only



GW gap = 6.94183 eV

G direct = 8.83292 eV; K direct = 7.41978 eV

Diagnostic direct_mixed_fourier route; PBE valley ordering is not a final strict-2D physical gate.
